

In connection with the current reports about the Corona virus and the associated uncertainties, we would like to point out that the MELLERUD Hygiene & Disinfection Cleaner also destroys enveloped viruses such as the Corona virus (Covid-19) to 99.99 %.

All other advantages of this item, which has been tested for viruses, are described below.

Hygiene & Disinfection Cleaner 0,5 l*

- Destroys 99.99 % of all enveloped viruses, e.g. Corona virus, influenza etc., within a short exposure time of 5 minutes.
(according to DIN EN 14476:2013)
- Disinfects and cleans surfaces hygienically and efficiently e.g. door handles, keyboards, handrails; but also work surfaces, refrigerators, WC seats or waste bins.
- Effective against flu and cold viruses as well as *E. coli* bacteria.
- Ideal to protect against infection and illnesses such as respiratory tract infections and diarrhoea.
